

SHREE JI GLOBAL IMPEX

CONCRETE LASER GUIDED SCREED WS940

The WS940 Concrete Laser Guided Screed is a premium ride-on, four-wheel hydraulic laser screed engineered for high-precision concrete floor construction. Equipped with a Honda GX690 25 HP petrol engine, advanced laser-guided elevation control, hydraulic spiral auger paving, and a high-frequency vibration system, the WS940 delivers exceptional floor flatness, productivity, and operator comfort for large industrial and commercial projects.

Key Features

- Powerful and fuel-efficient Honda GX690 (25 HP) engine.
- Automatic laser-guided leveling for exceptional floor accuracy.
- Full four-wheel hydraulic drive for superior traction and maneuverability.
- Hydraulic spiral auger distributes concrete evenly across the slab.
- 2.5 m aluminium screed head for high productivity.
- High-frequency vibration system for excellent concrete compaction.
- Advanced operator control console with intelligent controls.
- Constant-speed travel for consistent leveling accuracy.
- Heavy-duty steel chassis designed for continuous industrial use.
- Foldable receiver mast for easier transport and storage.

Technical Specifications

Specifications	Details
Operational Mode	Ride On
Motor Power	18.4 kw
Brand	Vanse
Material	Aluminium
Working Speed	2.5 km/h
Working Width	2.5 Meter
Model Name/Number	WS940
Laser System	Leica
Leveling Width	2.5M/8.20FT
Driving	Hydraulic
Paving Mode	Hydraulic Spiral Conveyor Paving
Paving Thickness	5-35cm
Vibrator System	Electrice Motor
Walking Speed	0-4.5km/h
Weight	800 Kg
Engine Model	Honda Gx690
Engine Power	25Hp
Fuel	(Petrol)
Fuel Tank	20L

***Specifications may vary depending on the motor configuration and customer requirements.**

Advantages

- Produces highly flat and level concrete floors (high FF/FL values).
- Covers large working areas efficiently with a 2.5 m screed width.
- Reduces labour requirements and construction time.
- Improves concrete density and surface finish.
- Automatic laser control minimizes human error.
- Stable hydraulic drive enhances operator comfort.
- Durable construction with low maintenance requirements.
- Ideal for continuous, large-scale concrete flooring operations.
