Wheel Barrow Trolley (Single/Double Wheeled)

The Wheel Barrow Trolley for Monkey Lift is a heavy-duty material-carrying trolley designed for construction material lifting and handling applications. Available in single-wheel and double-wheel configurations, it can be used with suitable monkey-lift/mini-hoist systems for transporting materials such as bricks, cement bags, sand, concrete, blocks, tiles and other construction materials.

Typical Indian-market configurations include 200 kg and 250 kg capacities. Single-wheel construction trolleys are available around 200–250 kg, while double-wheel versions provide improved lateral stability during movement.

Key Features

- 200–250 kg material carrying capacity
- Available in single-wheel and double-wheel designs
- Heavy-duty mild-steel construction
- Suitable for monkey lift applications
- Strong tray for carrying construction materials
- Easy loading and unloading
- Durable wheel and frame assembly
- Suitable for bricks, cement, sand, blocks and other materials
- Double-wheel version provides improved stability during movement
- Suitable for construction sites and material-handling operations

Technical Specifications

Specification	Single Wheel	Double Wheel
Product Type	Wheel Barrow Trolley	Wheel Barrow Trolley
Application	Monkey Lift / Construction	Monkey Lift / Construction
Load Capacity	200–250 kg	200–250 kg
Number of Wheels	1	2
Body Material	Mild Steel	Mild Steel
Wheel Type	Solid / Pneumatic	Pneumatic / Solid
Typical Wheel Size	14 inch	14 inch
Tray Capacity	Approx. 100–120 L	Approx. 100–120 L
Frame	Heavy-Duty MS Frame	Heavy-Duty MS Frame
Operation	Manual / Hoist Assisted	Manual / Hoist Assisted
Application	Construction Material Handling	Construction Material Handling

***Specifications may vary slightly depending on the manufacturer and platform configuration.**

Applications

- Building construction
- Residential projects
- Commercial construction
- High-rise construction
- Brick and block handling
- Cement and sand handling
- Concrete material transportation
- Renovation projects
- Material lifting using monkey lifts
- General construction-site material handling

Advantages

- **Single-Wheel Trolley**
 - Easier to maneuver manually
 - Suitable for narrow working areas
 - Simple and economical design
 - Convenient for loading and unloading
- **Double-Wheel Trolley**
 - Better lateral stability
 - Reduced side-to-side movement
 - Suitable for heavier loads
 - More stable during material transportation
